To whom it may concern. (Great Central Way Industrial Estate)

This notice is to advise that M.V Kelly on behalf of Taylor Wimpey South Midlands Ltd will be carrying out essential drainage outfall works at the entrance to the Great Central Way Industrial estate, Byfield road, Woodford Halse.

The planned works shall begin 24.08.16 and be subject to a two way lights traffic management system. During this time there shall be no access to the estate via Phipps road or the Byfield road from west of the estate entrance. Access to the estate can be gained via Scrivens Hill and then onto Byfield road during this time. This planned traffic route will change on the 30.08.16, with progress and access will later be possible via Phipps road/ Byfield road at which time the Scrivens Hill access route shall close. We plan to have all works completed by 04.09.16 at which time full road use shall resume.

Due to the difficult nature of the project and the necessity to complete these works as quickly as is practicable, whilst conducting the work in the safest possible manner, We have extensively looked at all possibilities and believe that this plan of action will cause the least disruption for all affected by the operation.

Our main focus is to keep the estate open at all times and this will be the case throughout the works.

We apologise for any inconvenience and we assure you of our best intentions at all times. If you have any queries or require any further information please do not hesitate to contact our office on the above number.

Kind Regards.

M.V. Kelly Ltd
